July 17, 2020

The Germany-Latin America Virtual Expo took place from July 14th to 17th with the participation of over 300 companies and institutions from Germany and from 19 countries of our region.

The fair was organized by the network of German Chambers in Latin America and gave a boost to trade and business between the region and the European country.

Mariel Special Development Zone, alongside other Cuban companies had virtual stands in the Cuban Pavilion as well as in the Service Sector Pavilion, which served to spread information, promote investments and to hold meetings with companies of interest from Germany and Latin America.
