

Users of ZED Mariel support rehabilitation of Havana

July 02, 2019
Oficina ZED Mariel

After the tornado passed through some municipalities of the Cuban capital on January 27, solidarity has characterized each day, and the users of the ZED Mariel have not been the exception. Some of the companies that are in operations have made their contribution to the recovery of the affected areas.

From the very first days the company Womy Equipment Rental, b.v. offered some of its cranes to contribute to the collection of debris and trees in spaces of difficult access in the municipality of 10 de octubre.

Also Devox Caribe, S.A. donated 130 1,000-liter plastic tanks and plastic blankets for the victims, in addition to the paint necessary for the recovery of the Hijas de Galicia Children's Hospital.

The company Profood Service, S.A., which recently began operations, wanted to donate its first

production of chicken broth to the victims, as well as 7 1,000-liter plastic tanks.

For its part, BDC Log S.A. guaranteed the transportation of the loads donated by Devox Caribe, S.A. and Profood Service, S.A.

The users of the ZED Mariel highlighted their appreciation and respect for the Cuban people, and showed their willingness to continue helping the recovery of the affected municipalities.
