Belgian BDC International, after several years of trading relations with Cuba, will invest in two new projects recently approved in Mariel Special Development Zone.

BDC Log S.A., set up as a totally foreign capital company, will undertake transport and logistics activities and plans to start its operation on temporary basis in parallel to the construction of its facilities.

BDC Tec S.A., the second subsidiary of BDC International in Mariel, will be in electronics, producing electrical switch boards and temperature sensors, among others.
